## Office 365 iPhone Setup

201 Wayne Coulthard Fri, Feb 23, 2018 Office 365 2070

This article is to demonstrate how to configure your email account onto an iPhone.

Go to Settings, Select Accounts and Passwords and chose Add Account.

VPN	VPN		$\bigcirc$		Messages		>					
5	Carrier	vod	lafone UK >		FaceTime		>					
				6	Maps		>					

Here you will need to select Exchange, enter your email address (description is left as exchange, click it and it will auto-fill for you). Then enter our password and select sign in.

All done! You have now successfully configured your email onto an iPhone.
