## Selective Call Rejection

### Description

Reject calls when pre-defined criteria, such as phone number, time of day or day of week, are met.

### Function

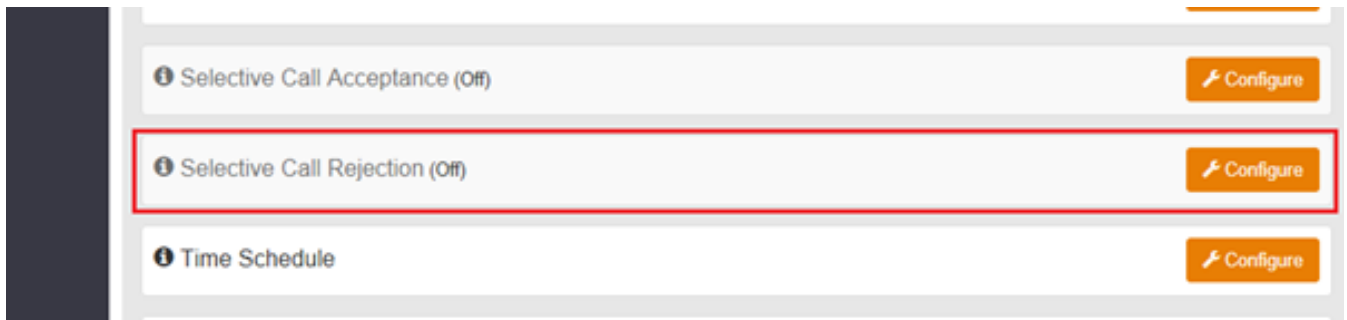

Selective Call Rejection allows you to reject calls that meet your pre-defined criteria. These callers will be given an announcement that you cannot be reached. Use this feature to prevent nuisance calls from people you would rather not talk to. The criteria for each Selective Call Rejection entry can be a list of up to 12 phone numbers or digit patterns, a specified time schedule, and a specified holiday schedule. All criteria for an entry must be true to reject the call.

### Configuration/Operation

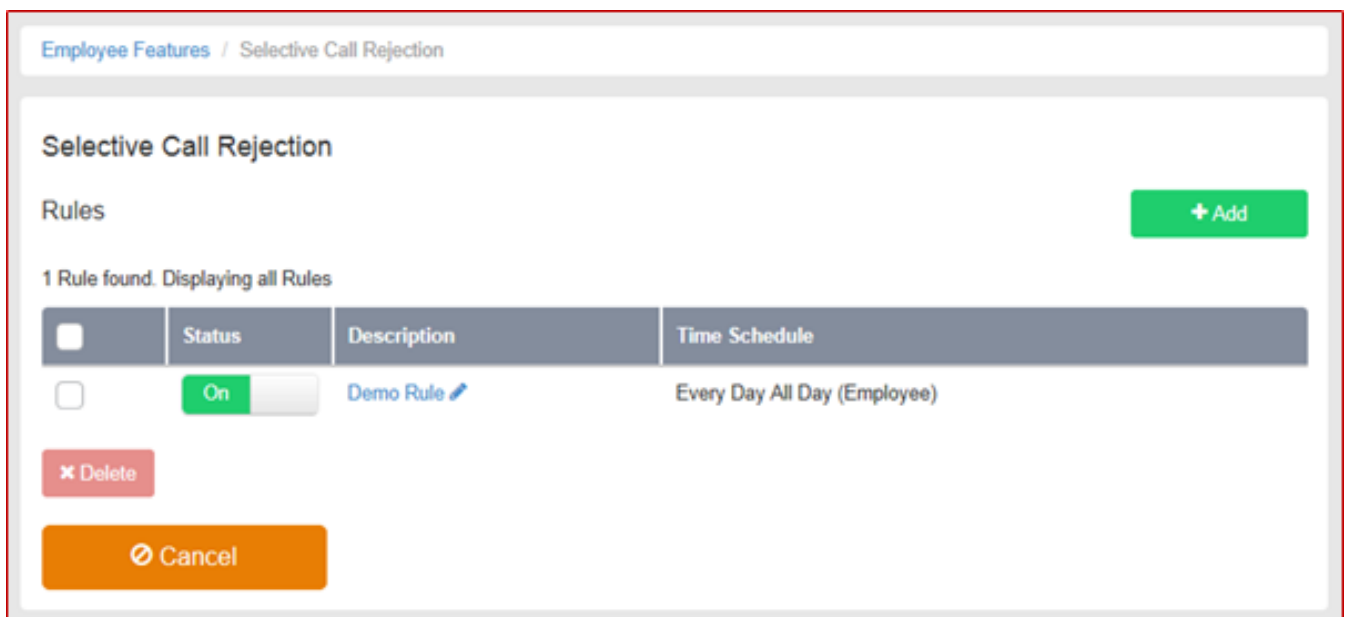

In The Business Port navigate to:

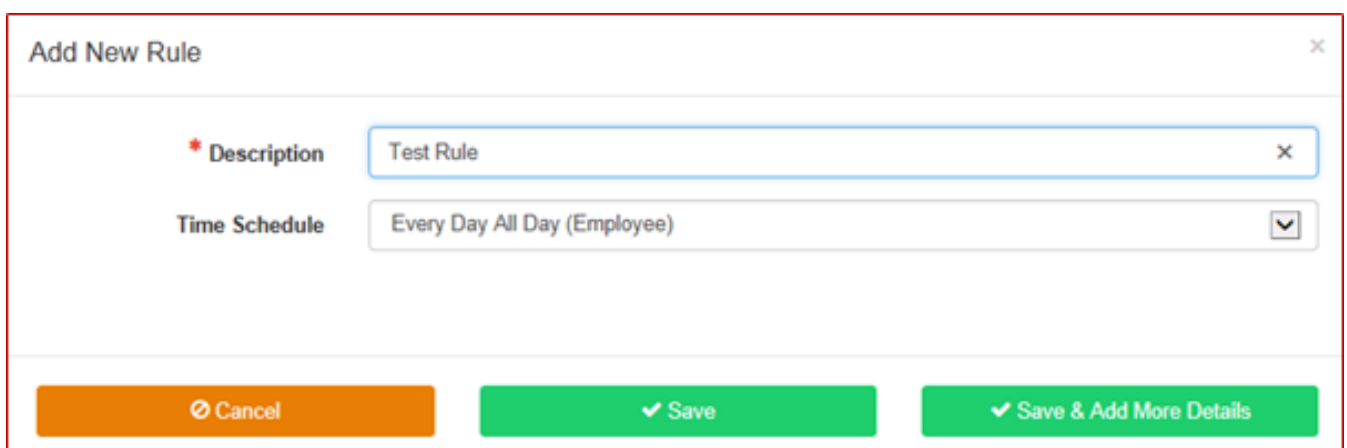

- Employees > Features > Call Control > Selective Call Rejection

- Select 'Configure'
